Original vocabulary for Hospital Item Dominoes #1

1. *This activity is best done in a group with one set of cards between 3 to 5 students.*
2. *Create a set of 40 cardboard-backed cards for classroom use. Alternatively print copies for students to take home and practise.*
3. *Prepare for the activity by familiarizing students with the vocabulary (below).*
4. *When you're ready to play, lay all the cards face up on a large table or desk.*
5. *Choose a card at random. Try to match another card to the part of the word on the first card (for example, match 'ice' to 'pack').*
6. *Try to avoid making combinations such as medical cream, colostomy pack, height gauge, and ice cream!*
7. *Remember that it may not be possible to create a perfect, complete chain each time. Sometimes the chain may need to be broken up and reconnected. The activity will work best if the combinations are compounds derived from the list below:*

adhesive tape	compressed air outlet	hypodermic needle	measuring jug
anti-infection mask	cough syrup	ice pack	measuring spoon
antiseptic cream	emesis basin	ID bracelet	medical chart
arm rest	examination table	identity tag	medical instruments
baby bottle	first aid kit	infectious waste bin	naso-gastric tube
bedside table	gauze bandage	IV drip	neck brace
blood pressure gauge	gauze dressing	IV pole	nurse call button
breathing tube	hearing aid	IV stand	overbed table
catheter tube	heating pad	kidney basin	shampoo cart
children's wardcolostomy bag	height scale	latex gloves
